TREATED WITH
IRRADIATION

I believe the FDA should keep its requirements to prominently label irradiated packaged foods and non-packaged foods by always displaying the radura logo along with the words "treated with irradiation." I feel alternative terms such as "cold pasteurization" are misleading and should never be used.

Irradiation is criminal
signature

period and should not be
printed name, occupation

done to any food. It is poison
address
put on us because the corporate
chemical companies want to sell
city state zip
these products. It is greed, greed, greed.
